Re: Application by Qwest Communications International, Inc. for Authorization to Provide In-Region InterLATA Services in the States of Colorado, Idaho, Iowa, Montana, Nebraska, North Dakota, Utah, Washington, and Wyoming, WC Docket No. 02-314

Dear Ms. Dortch:

On Tuesday, December 10, 2002, Len Cali, Robert Quinn, David Lawson and the undersigned, all representing AT&T, met with Commissioner Kathleen Abernathy and Matthew Brill, Commissioner Abernathy's Legal Advisor, to discuss concerns raised by AT&T in the above-referenced proceeding. In particular, AT&T reiterated that Qwest's failure to provide Mechanized Loop Test ("MLT") information is a clear checklist violation, that Qwest again has failed to demonstrate compliance with Section 272, and that Qwest's recent filing and posting of agreements did not, and could not, cure the discrimination and other secret deals-related deficiencies in this application. In addition, Qwest's December 3, 2002 ex parte letter that addresses Qwest's provisioning of in-region interLATA long distance services was also referenced.

One electronic copy of this Notice is being submitted to the Secretary of the FCC in accordance with Section 1.1206 of the Commission's rules.

Sincerely,

A handwritten signature in cursive script that reads "Amy L. Alvarez".
